

Share the power of **GX**

In cases where your customer needs high performance recovery rates for frequent usage (maybe for those showers for a growing family with multiple teenagers), and space is tight..... **Bradford White's High Performance Series™ is your solution, offered in 25 gallon and 55 gallon sizes.**

**Tired of closing a small portion of those tankless water heater quote requests?** .....The GX High Performance Series is also your alternate solution, with attractive pricing ....and same installation costs as any other gas product with stored volume!

When tested to the industry standard residential First Hour Delivery procedure, the 25-gallon model (GX2-25S) can provide 155 gallons and the 55-gallon model (GX1-55S) will deliver 200 gallons. Be sure to visit [www.bradfordwhite.com](http://www.bradfordwhite.com) for current specifications and additional details.

**SPRING JACKET PROMOTION**

**See your participating Weinstein Supply branch to take advantage of this great promotion!**

From April 1st to July 1st, 2009....for every residential or commercial **GX** unit purchased, receive a "Bradford White® & Weinstein Supply, Division of Hajoca" spring jacket ...courtesy of Bradford-White and your local Weinstein Branch.
